

## EXECUTIVE SUMMARY

February 24, 2005, the Division for Air Quality received a permit renewal application from Greif Industrial Packaging & Services to operate a metal drum manufacturing plant in Florence, Kentucky. This application was determined to be complete on December 2, 2005. The permitted points are two drum manufacturing finishing lines. VOC emissions from the finishing lines are voluntarily limited by the permittee to attain conditional major status. The source is major for HAP emissions.

The issuance of a Title V permit requires a preliminary determination and public notice. This has been done by the Division. An advertisement was placed in the Boone County Recorder on September 7, 2006. The thirty day comment period has expired. The Division received comments from the source.

In conclusion, a thorough analysis has been made of all relevant information available which pertains to this application. The Division has concluded that the proposed operation will comply with all air quality regulations and requirements. Therefore, a final determination has been made to issue a proposed permit which will become final upon approval of the EPA.
